

—“and from there we went to Japan”

Talk about adventures!

Men in the Navy come home with the kind of experiences that most chaps read of only in the books.

Here's your chance!

Uncle Sam has, as you know, a big Navy and gives red-blooded young fellows like you an opportunity to step aboard and “above off”.

What will you get out of it? Just this:

A chance to rub elbows with foreign folks in strange parts of the world.

The chance for good honest work on shipboard—the kind of work that teaches you something real: the kind of work that puts

beef on your shoulders and hair on your chest.

You will get 30 care-free vacation days a year, not counting shore leave in home or foreign ports.

You will have the kind of comradeship in travel that sailors know.

You will have regular pay, over and above your meals, lodging and your first uniform outfit—good stuff all of it.

You can join for two years. When you get through you'll be physically and mentally “tuned up” for the rest of your life. You'll be ready through and through for SUCCESS.

There's a Recruiting Station right near you. If you don't know where it is, your Postmaster will be glad to tell you.

To any Father and Mother—

In the Navy your boy's food, health, work and play, and moral welfare are looked after by responsible experts.

WILSON EAGER TO BE AT WORK

His Physicians Are Having Their Hands Full Keeping Him Quiet

HE IS PERMITTED TO READ A LITTLE

His Physicians Encouraged But Not Too Optimistic

Washington, D. C., Oct. 8.—With President Wilson's condition steadily improving, his physicians are having their hands full to keep his attention away from the duties of his office. They say that for the present, however, the prohibition against work will be enforced unless some matters urgently requiring attention develop. The president is permitted to read a little.

Although Dr. Grayson and the other physicians appear much encouraged they are guarding against being too optimistic. It is taken as a hopeful sign, however, that the president's two married daughters, who have been at the White House for several days, left for their homes yesterday. It was said they might return in a few days regardless of the president's condition.

At 9 A.M.

Are your clothes on the line or—Are you just beginning the tiresome task of rubbing, rubbing?

At nine o'clock on Monday are you just beginning the day's dreary rubbing of clothes? With all the boiling and bluing and starching and hanging out still to do? Or are your clothes gaily flapping on the clothes lines—snowy-white—immaculately clean?

Begin this week the new way of washing—have your clothes in the sun by nine o'clock!

Why this way takes so much less time

When you wash with Rinso, the new form of soap for the family washing, absolutely all you have to do is to soak the clothes and rinse them.

The pure, cleansing Rinso granules dissolve instantly. There's not a bit of solid soap to stick to the fabrics and injure them. There are no harsh cleansing agents to “eat” the cloth.

You soak the clothes overnight, or for three hours in the morning.

Shining white without boiling, without any real rubbing

The rally day service was held last Sunday morning in the Methodist church and it was in every way a great success. The subject set forth was “Youth and the New Day,” and it was set forth in such a way as to be very impressive, indeed. The dark and bitter experiences of the past are passing to make way for the new day of privilege and blessing by the witnessing of the cross—through the medium of youth's new vision and the Sunday school. The mu-

sical theme was well rendered and both children and adults acquitted themselves with great credit. The whole service was greatly enjoyed by all who were present. Quite a number of the children received the graduation diplomas and were promoted to higher classes. Mr. and Mrs. W. M. Wright presented the diplomas. It is needless to say that everyone enjoyed seeing the little children taking their part in the program.

Then you *rinse*—and the washing is done!

No boiling—except occasionally, if you wish, to sterilize.

No rubbing—except very soiled spots—and those only lightly between your hands.

You cannot believe the difference Rinso will make on Monday, until you have tried it. Until you see how the rich Rinso suds loosen all the dirt while the clothes soak. Until you see how just rinsing washes away all this loosened dirt without a bit of rubbing.

Yet the Rinso suds are so mild, your tubful of clothes is as safe as in water alone!
